Summary

Senior SRE / DevOps Architect with 7+ years of experience. Specialized in **Bare-Metal**, **Virtualization**, and **Containerization** for high-load platforms. Expert in full-cycle DevOps, designing IaC ecosystems from scratch, and building full-stack infrastructure monitoring.

Experience

Kazdream Group

DevOps Architect

Sep 2025 – Dec 2025

Astana, Kazakhstan

- Maintained critical infrastructure within a fully isolated (**Air-Gapped**) on-prem environment.
- Developed production-ready **IaC (mono-repo)** with Dev/Stage/Prod environment separation and **HashiCorp Vault** secret isolation, utilizing role-based structures and tags.
- Built automated provisioning pipelines using **Terraform** and Cloud-Init.
- Deployed full-stack monitoring using **Grafana**, **VictoriaMetrics**, and **exporters via IaC**.

TargetAI Limited

Senior DevOps / SRE Engineer (Acting Team Lead)

Jun 2024 – Sep 2025

Astana, Kazakhstan

- Managed high-load bare-metal infrastructure for video analytics and streaming data in **on-prem and cloud** environments.
- Scaled Ansible mono-repo for HA-clusters with reusable roles and tag-based deployments.
- Performed OS hardening and package builds for **AMD** and **ARM64 (Jetson)** architectures.
- Acted as Team Lead: mentored SRE engineers and ensured production stability and performance.

HardCode

DevOps Engineer

Jul 2023 – Jun 2024

Astana, Kazakhstan

- Full-cycle DevOps: From hypervisor configuration to orchestrating product deployments in client on-prem environments.
- Administered **Proxmox** and XCP-ng clusters; optimized load balancing via HAProxy.
- Designed CI/CD pipelines in GitLab CI; automated operational tasks using **n8n** and Bash.

Jusan Bank

Junior L2 DevOps Engineer

Sep 2022 – Jul 2023

Almaty, Kazakhstan

- Supported 24/7 critical banking systems; monitored health via Zabbix, **Dynatrace**, and Grafana.
- Automated package builds in Jenkins and supported workloads across **K8s**, **Docker**, and **Bare-metal**.

Technical Skills

Containerization	Docker (Swarm), Kubernetes
CI/CD & Automation	IaC, Git, Jenkins, GitLab CI, Ansible, Terraform, nftpm, Makefile
Monitoring	VictoriaMetrics, Grafana, Prometheus, Promtail, Loki, ELK, Dynatrace
High Availability	Keepalived, HAProxy, Nginx, FirewallD, Consul, Unbound, Vault
Data & Storage	PostgreSQL, Cassandra, ClickHouse, Redis, Kafka, Qdrant, SeaweedFS, etcd
Infrastructure	Linux, Windows, Proxmox, Hyper-V, VMware ESXi, Xen Project, Cloud

Education

M.S. in Information Security, ENU named after L.N. Gumilyov

2021

B.S. in Information Security, ENU named after L.N. Gumilyov

2019
